LATEST FOREIGN NEWS.

By the arrival of the Steamer Niagara at Halifax, Nova Scotia, on Thursday evening last, we have the latest Foreign News.

The Canadian outbreak has been fully debated in Parliament, and Lord Elgin sustained.

It is said that amendments to the Navigation bill will be proposed, which may materially change its character, if not prevent its final passage. We quote the following items from the Baltimore

Sun of Saturday last:

"FRANCE. The election for members of the French ssembly took place on the 13th instant, but the realt is unknown. Returns have been received from he city of Paris, where nine Socialists and nineteen loderates have been returned.

The French army had not entered Rome, as had een reported. The Italian question had been furthdiscussed in the French Assembly, and the Minisers were again defeated, by a majority of 38. Why is it, or how is it, that Mr. Venable, who, ext to Mr. Calhoun, has been the most forward for onthern rights, is more bitterly denounced by the Whigs of North Carolina than any other man? with a reason or so on the occasion ?

We know it is rather a difficult task to convice a great many amongst us of the impropriety of such a course, from the fact that we may be regarded selfish in this matter, and that these prints are afforded cheaper than those published in our own land. And again that it is too much the case that we are prone to believe things brought from a distance beter than those at home. No one can deny the fact ipon comparison, that the newspapers of the South are conducted with as much ability as those of the North; true they are not so cheap, but give us the same amount of subscription and this will most assuredly be the case. It is a matter of surprise when we look into the different post offices around us, to see the number of Northern papers that find their way into the hands of Southern readers—papers too which over ook no opportunity to villify and denounce us, and whose only recommendation is a weekly love tale, the sickly production of some visionary idler, or sentimental school girl. We have known very intelligent men amongst us to discontinue their subscriptions to papers published in this State that were every way worthy of patronage to subscribe for some overgrown Northern weekly because it was afforded cheaper. Should this be the case at the present time when insult after insult has been heaped upon us by

The press of the North is the great power that has wrought the rapid and important change upon the uestion of abolition that has taken place within the ast few years in this country. It has groaned under the weight of villainous publications that have covered the land as a flood doing secretly their work of mischief, and undermining the very Constitution it-self. Under the name and garb of philanthropy, appeals have been made to the people to shake off the sin of slavery, a thing offensive both to God and man. Where these have failed, resort has been had to carricature and insult, and the Southern master represented as the veriest tyrant upon the earth, holding over his down-trodden slave the rod reeking with his have declared that he would not return to Rome at such a price, and to have sent a message in conseous as ever in endeavoring to prejudice the world against us. Shall we then continue to read their papers under the existing state of things, and with our funds, furnish them the means to still insult us? It is high time we were looking to the matter, and that we should begin to consider our means of redress and Abbeville Banner.

CAMPHOR versus CHOLERA. As there seems to be general apprehension that the cholera is approaching our city, and some few believe it is already among us, I beg permission, through your columns, to make public the following facts: During the year 1832, when we were at first visited with the cholera, I learned from some source, that the spirits of camphor, taken in small doses, was a certain specific. Being at the time connected with the Post office in this city, I procured several dozen of small phials, which the past week, but was prevented by indisposition I filled with strong spirits of camphor, and gave one from addressing the people. Two persons in my own family were attacked with cholera, one of them severely, to whom I administered camphor before any physician arrived, and they were both cured. GUNPOWDER vs. CHOLERA. When the Cholera visited London in 1832 and '33, the city authorities had small quantities of gun powder tied tightly in strong paper, and fired in the alleys and densely populated portions of the great metropolis. The concussion disturbed the air, and the odor from the powder displaced obnoxious effluvia, and purified the atmosphere. It was used in theatres, churches and school rooms, and was found to be a powerful disinfecting agent, the smell remaining upwards of 24 hours in the buildings. The purifying virtues of Lime have been long known It was used in the lazarettos of Trieste and Malta, and was tried in Paris in 1833, and also in Montreal. In the latter city cannon were placed in the narrow liam R. King, of Alabama. The Senator longest in streets, and fired with blank cartridges.

## BERNARD'S MEDICINE. For Cure of Cholera, Diarrhoea, &c.

THIS Medicine has for many years been experimented with in every stage of disease for which it is intended; and notwithstanding the many insidious attacks to place it with the herd of quack articles generally advertised; it has stood the test, and now stands triumphant How many fond mothers and frugal house-wives keep above its enemies. It has found a prominent place in their pretty daughters and their preserves for some extra occasion—some "big bug" or other, till both turn sour.

This seems to us marvellous peor economy.

It is said that the seeds of Sunflower are one of the most flattering commendations of its superiority over any other remedy for the cure of Summer Complaints in Chil-dren, Colics, Cramps, and Spasms, and unhesitatingly

recommend its use to every one. The proprietor writes me a few days since, that he was retailing about 150 Battles every day. A fresh supply just received and for sale by

SOUTH LOWELL ACADEMY

THE closing exercises of this Institution, for the present session, will be held on Wednesday and Thursday the 27th and 28th of June; on the latter of which days an address upon Education will be delivered by Dr. W. A. Smith, President of Randolph Macon College.

The public are invited to attend. The Fall Session will commence on Monday, July

16th, and close on the 20th of December. This Institution is situated twelve miles east of Hills borough, in a pleasant and healthy section of country, near the residence of John B. Leathers, Esq. For good morals, the neighborhood cannot be surpassed; which, together with the constant oversight of the Principal,— Rev. James A. Dean, a graduate of Wesleyan University ty, Connecticut-furnishes a guarantee to our patrons hat their sons will be exposed to no immoral influences.

Preparations are being made to enlarge the buildings; so that by the commencement of the next session we

shall be able to accommodate all that may come. A NORMAL CLASS will be connected with the Sch for the purpose of preparing young men for the duties of a teacher's life. This class will receive lectures from the Principal, upon successful modes of conducting English Education; and in addition their attention will Bacon. There is a good enquiry for Va. cured hog be frequently called to exemplifying cases, as they may present themselves in the management of the school, or in the recitation of classes. They will also have occasional opportunities of putting in practice the instructions Business has been so extremely dull, for two or three they receive, by conducting classes under the supervision

charge. No student will be received, expect for special reasons, for a shorter time than one session; and except in cases of protracted sickness, no deductions of tuition will be made for absence. Students are earnestly requested to be present on the first day of the session, and remain till the close.

South Lowell Academy is a "Preparatory School" of Randolph Macon College, and as such will receive occasional visits from the President and Professors of that institution, who will deliver addresses and examine the students. Any student who shall here pass an approved examination on the preparatory studies, will be admitted at Randolph Macon College without further examination; but if any shall desire to enter other colleges, they shall receive a certificate of their attainments and characters. Students coming by public conveyances from the lower part of the State will leave the Rail Road at Henderson, and proceed by stage to Oxford; where by calling at Col. Young's Hotel, they will at any time obtain a private
